

osCommerce Translate Module

Price: \$39.00

Product description:

osCommerce Translate Module is a unique solution which will let your customers understand your site's content by translating it into their languages.

You don't need to translate your store manually or install any additional language packages any more. osCommerce Translate Module enhances your existing site with a fully automated real-time translation service based on major engines such as Babel Fish (AltaVista and Yahoo) and Google Translate. It's easy to let your customers use all of the most spoken languages while shopping at your store now.
